HeartStart OnSite Defibrillator!

HEARTSTART
ONSITE DEFIBRILLATOR

Be ready in case of an emergency! The American Heart Association is launching a nation wide effort to educate all businesses in the use of this life-saving device because it has been proven to save lives with early intervention in the event of a heart attack. Ask your HP Products System Consultant to demonstrate it for you today! Request HP Item No. Z5066, HeartStart Defibrillator with Red, Hard Plastic Carrying Case and 1 set of Adult Pads included.

Additional accessories available.

- Clean design and clear voice instruction guides user through each step of defibrillation and CPR.
 - Available for use on anyone of any age, including children and infants.
 - Lightweight, fully equipped at just 3.3 pounds.
 - Powered by a long-life (4-year) disposable battery.
 - Defibrillator performs self-tests daily to help ensure readiness.
- Patented SMART Analysis heart rhythm assessment and SMART Biphasic defibrillation therapy, clinically proven in nearly 10 years of use.
